

Mr Kenny Song's career and achievements over the last 20 years

Kenny Song has been a key player in the global financial landscape for the past two decades. Over this period, he successfully established the Touchstone Capital Group Platform, a leading global platform comprising both a project pool and a capital investors pool. The platform currently boasts a substantial project pool exceeding \$50 billion USD, with a diverse investor base of over 30 leading investment firms worldwide.

In response to the evolving global industry and financial landscape, Kenny Song strategically designed and implemented a platform economy and hub economy. This approach has driven business development across various sectors, including mining, new energy, oil and gas, supply chain, healthcare, agriculture, high-tech, and arts & entertainment. Under the Touchstone platform, a meticulous consideration of cash flow and future development has been paramount, leveraging each industry's underlying projects to enhance robust liquidity.

Kenny Song's leadership has led to the establishment of dedicated funds within the platform to support large-scale project investments and management. With a seasoned fund team operating from both the UK and China, the platform is currently overseeing a diverse portfolio of projects with a cumulative value surpassing \$30 billion USD. This significant portfolio demonstrates Mr. Kenny Song's adeptness in navigating complex financial landscapes and successfully managing substantial investments across various industries.
