

**Mr Harman Ng** is a prominent leader in the shipping and logistics supply chain industry with over 30 years of experience. Committed to fostering collaboration between China, Hong Kong, and Belt and Road countries, he specializes in business incubation, digital transformation, blockchain, innovation technology application, international trade, supply chain finance, and free trade zone policy. Harman has received prestigious awards, including the China Sourcing and Supply Chain Person of the Year and the China E-Commerce Outstanding Contribution Person Award.

Recognized as one of the 20 key figures in China's procurement and supply chain initiatives, he has played a vital role in China's logistics internet transformation. Harman has been actively involved in numerous mergers and acquisitions in China across diverse sectors such as bulk resources, new energy, healthcare, innovation and technology, manufacturing, and retail.

With a vast network of political and business resources globally, Harman has held key positions in renowned organizations. Formerly serving as the IT Director of UPS United Parcel Asia Pacific, Senior Vice President of Reit Information, and CIO of SITC SITC, he currently holds pivotal roles as the Executive Vice Chairman of the International Federation of Logistics and Supply Chain Industries in the Greater Bay Area, the representative of the governing unit of the Blockchain Application Sub-Committee of the CFLP China Federation of Logistics and Purchasing, and the Vice Chairman of the Cross-border E-Commerce Industry-Education Integration Alliance of the Guangdong-Hong Kong-Macau Greater Bay Area. Additionally, he serves as the Vice Chairman of the Hong Kong Shipping and Logistics Association (HKSTLA).
